

Construction Clean

The Expertise to Do It Right!

Jack Laurie Commercial Floors has been installing and cleaning flooring for new construction projects in Indiana since 1950. Because floor cleaning and finishing is a major component of the construction clean up process, we can deliver excellent value for the entire final clean. In addition, we ensure that floors are cleaned and finished according to the manufacturers' specifications. We guarantee all furniture, fixtures and equipment will be clean and ready to go! Our hands-on management philosophy ensures quality control, safety and security. We are licensed, bonded and insured.
